

1980 CORVETTE CONTINUED.

If you care to add options to your Corvette, consider these: AM/FM stereo radios with either stereo tape or CB; removable glass roof panels to help give you that open-air feeling (removable fiberglass roof panels are standard); a new handy roof panel carrier; power door locks; new aluminum wheels; and Gymkhana suspension equipment which includes larger diameter rear stabilizer bar and bushing, higher rate springs and special shock

absorbers. Other options are available. Check them over when you custom build your own Corvette.

And don't forget you have a choice of bucket seat interiors: cloth/leather or all-leather seating surfaces.

While you're in the driver's seat, you'll be aware of an imposing array of instrumentation in front of you and off to your right. Included is a speedometer with trip odometer, tachometer, coolant temperature gage, oil pressure gage, voltmeter, fuel gage and clock. Your Corvette keeps you well informed. Also at hand are convenient controls for the radio, power windows and air conditioning.

Exterior Colors:

Dark Blue (Metallic), Yellow, Dark Claret (Metallic) and Red. Other colors: Dark Brown (Metallic), Classic White, Silver, Black, Dark Green (Metallic) and Light Beige.

Interior Choices:

Cloth and leather seats are available in beige, blue, claret or

oyster. Leather seats in the same colors plus black and red.

- Dual master

cylinder brake system with warning light • Starter safety switch.

Anti-theft

- Anti-theft ignition key reminder buzzer
- Anti-theft steering column lock
- Built-in anti-theft audio alarm system.

A WORD ABOUT ASSEMBLY, COMPONENTS AND OPTIONAL EQUIPMENT IN THESE CHEVROLETS.

The Chevrolets described in this catalog are assembled at facilities of General Motors Corporation operated by the GM Assembly Division. These vehicles incorporate thousands of different components produced by various divisions of General Motors and by various suppliers to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to produce Chevrolet products with different components or differently sourced components than initially scheduled. All such components have been approved for use in Chevrolet products and will provide the quality performance associated with the Chevrolet name.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest you verify

CUSTOM BUILD YOUR CORVETTE.

(See your dealer for current ordering information and specific model/option availability.)
