Defender Accessories

The Defender is the yardstick by which 4x4 vehicles are measured. River Beds, Mud Slides, Deserts, Mountain sides, relentless heat and sub-zero temperatures: no other 4x4 has the guts to tackle the extremes of temperature, conditions and terrain encountered every day by Defender users.

Because Defender plays so many roles, and because everyone's needs are different, a whole range of factors will determine how you want your Defender to look, and what you want it to do. To tailor your Defender exactly to your needs and preferences, Land Rover have designed a comprehensive range of accessories every bit as tough, versatile and good-looking as Defender itself.

From light guards to steps and side runners, from snow chains to winches, from extra storage units to roof racks to exterior styling kits, Land Rover have the accessories that can make your plans for Defender a reality.

DEFENDER

Lighting and Front Protection

As tough as the vehicle itself

In the toughest driving conditions the Defender range of auxiliary lighting offers added safety and security. Lighting outputs are set to the maximum allowed under EC regulations. On or off-road, wherever visibility is poor, you can depend on these tough and effective lighting accessories.

Added protection comes with the range of front bars and lamp guards. As tough as the vehicles themselves and tested to the same rigorous standards to resist minor shunts whilst adding to the aesthetics of your Defender.

Carrying

Accessories to cope with
the load

No 4x4 vehicle is more versatile than a Defender. Whatever you're carrying Land Rover have the accessory to cope with the load. Defenders' carrying systems are also flexible with roof racks of varying capacities to carry the more standard loads to adjustable roof bars for more specialist requirements to transport anything from the accessory luggage boxes to snowboards and water skis. All are designed to meet the toughest demands placed on them whether it's for business or pleasure use.

Protection and Access

Safer - easier

Some of Defender's well designed range of accessories have a multiple function. The side runners not only afford easier access to the vehicle but also give greater intrinsic protection. The rear access ladder makes loading on the roof rack easier and safer whilst the raised air intake protects the heart of your Defender from dust and water intrusion. All constructed in tough, corrosion-resistant materials making your life easier and making your Defender work harder for you.

Towing and Winching

The world's hardest working vehicle

Defender's reputation as the world's hardest working vehicle is renowned. The versatility of Defender extends even further whether towing or winching. Your vehicle can be fitted with a range of powerful electric winches, designed exclusively for Land Rover. Defender's winches have been created as integral elements for maximum performance with rated capacities of up to 9000lb, all with fully automatic load actuated braking systems, sealed-for-life and water resistant with the added safety of a remote control handset facility.

Towing options are equally as flexible with a choice of adjustable or fixed towing systems to suit all needs.

STC8919

STC8818

Touring

Security and peace of mind

On and off road, Land Rover offer a range of accessories that add security and peace of mind. From child seats, designed to safely integrate with Defender's seating itself, to tool kits, fire extinguishers and warning triangles. All pack away for convenient storage until they are required.

Exterior Styling

Classic and enduring design

Defender is the 4x4 icon; classic and enduring in design. Land Rover's designers carefully consider the functionality of the accessory and its aesthetic value. The checker plate panelling not only protects the sills, wing tops and bumper tops from knocks and scratches, it also looks good.

STC7667

Interior Protection

It's a hard life

Most Defenders lead a pretty hard life in conditions that other vehicles could never tolerate. To give added protection to the interior of your Defender, Land Rover have designed a range of accessories that help preserve the trim and carrying spaces in your vehicle. Other accessories such as the gun box, dog guard and lockable cubby box give added security and safety.

Alloy Wheels

Maximum performance and reliability

There is a choice of three alloy wheels specifically styled and designed for Land Rover.

Each design is rigorously tested (tests that even include a 100% X-Ray analysis) to ensure maximum performance and reliability both on road and off road. In snow and ice, toughened steel snow chains are easily fitted to provide added confidence and safety.

Genuine Parts

100% Land Rover

Land Rover's engineers design and produce Land Rover accessories to meet specific needs and high performance standards. Uniquely fit for purpose, each accessory is rigorously tested and therefore guaranteed. Whilst Land Rover always recommend that Land Rover Accessories are fitted by qualified Land Rover Technicians, there are some minor tasks you may wish to undertake yourself. For this reason we offer a range of cleaning and maintenance kits which can be kept with the vehicle.

CAR CARE RANGE

World of Land Rover Accessories

No-one has more knowledge and experience of Land Rovers than your Land Rover dealer. And no-one is better qualified to fit the accessories in this brochure. Land Rover accessories are much more than frills and trimmings - they're an integral part of your vehicle, designed and built to the same exacting standards as Land Rover itself, and as much a part of the vehicle as the wheels and engine. These accessories will deliver the kind of rugged performance and durability that you would only expect from a product with the Land Rover marque, and are protected by a 12-month, unlimited mileage warranty.

So when it comes to fitting your accessories, get it right first time. The specialist technicians in your Land Rover dealership have the skill, the know-how and the tools to build these products into your vehicle, as well as direct access to the largest and fastest Parts and Accessory service in the world. It only makes sense to have your accessories fitted by the experts. That's why Land Rover recommend that your accessories are fitted by your Land Rover dealer.

LIGHTING AND FRONT PROTECTION

AUXILIARY LIGHTING

For driving at night, or through difficult conditions, the Defender range of auxiliary lighting will overcome the deepest gloom and the thickest fog. On- or off-road, wherever visibility is poor, you can depend on these tough and effective quartz halogen driving and fog lamps.

Safari Lamps

Exclusive to Land Rover, the Safari Lamps are designed by a leading European manufacturer specialising in powerful lens technology. The lamps feature an impact resistant lamp body, 55W quartz halogen bulbs and an integrated, removable stone-guard for added protection.

- | | |
|------------------|--|
| STC8480 | Safari 5000 Driving Lamp |
| STC8481 | Safari 5000 Fog Lamp |
| RTC9586AA | Auxiliary Lamp Wiring Harness. Includes relay and special connectors. |

Rally 1000 Rimless Lamps

These robust lamps are exclusive to Land Rover dealers and feature a new, Land Rover imaged stone-guard.

| STC7643 | Rally 1000 Fog Lamp |
| STC7644 | Rally 1000 Driving Lamp |
| RTC9586AA | Auxiliary Lamp Wiring Harness. Includes relay and special connectors. |

UNDERSHIELD

A sturdy steel Undershield designed to give under-engine protection when driving in harsh off-road conditions.

- | | |
|----------------|--------------------|
| STC1371 | Undershield |
|----------------|--------------------|

FIXED LAMP GUARDS

A Defender is designed to withstand all sorts of pressures from the outside world, and these lamp guards give the kind of tough performance you'd expect from Land Rover accessories. Sturdy mesh-type lamp guards will provide cost-effective protection for front and rear lenses, and will help to guard against corrosion with their galvanised steel assemblies.

- | | |
|----------------|---|
| 345985 | Single Front Lamp Guard Fits 90 and 110. |
| RTC8064 | Rear Lamp Guards (Pair). Two sets required for each vehicle. Fits 90 and 110 (except HCPU). |
| STC7561 | Perspex Headlamp Protectors (Pair) Suitable for all Defender models, these clear perspex guards will provide protection for headlamp lenses. |

HINGED LAMP GUARDS

Unique to Defender, these hinged lamp guards will protect front and rear lenses from flying stones and low-speed impact, and will open for easy lamp cleaning. Constructed from durable, black nylon-coated steel, the guards are designed as horizontal slats to complement Defender's distinctive styling, and the plastic 'P' clips help to prevent corrosion.

- | | |
|----------------|--|
| RTC8969 | Hinged Lamp Guards, Front Pair |
| RTC8860 | Hinged Lamp Guards, Rear Pair. For 90, 110, with door-mounted spare wheel. |
| RTC8859 | Hinged Lamp Guards, Rear Pair. For 90, 110, without door-mounted spare wheel, designed for station wagon type door. |
| STC8056 | Hinged Lamp Guards, Rear Pair. For 110 HCPU. |

NUDGE BARS

Increase frontal protection and save on the expense of minor shunts with these tough, good-looking nudge bars. Designed uniquely for Defender, the nudge bars are encased in a superior dipped nylon coating with finished welds to enhance Defender's appearance, and include firm mountings for auxiliary lights.

- | | |
|-----------------|---|
| STC50270 | Wraparound Nudge Bar in Black Steel. Includes fixed lamp slats. For 90, 110, 130. Not suitable for air-conditioned models. |
| STC8143 | Wraparound Nudge Bar in Black Steel. For 90, 110, 130. Suitable for air-conditioned models. |
| STC8476 | 'A' Frame Nudge Bar in Black Steel. For 90, 110, 130. |
| STC8477 | 'A' Frame Nudge Bar in Stainless Steel. For 90, 110, 130. |

CARRYING

PAGES 4-5

LUGGAGE AND SKI BOXES

Designed for use with the STC7582 sports bars, these luggage and ski boxes are made of lightweight but strong plastic and give maximum carrying capability. Raised by gas struts for ease of use, and sporting the distinctive Land Rover badge, these boxes provide a lockable stowage area for all luggage and valuable sports equipment.

STC7627 Luggage Box
STC7628 Ski Box

THE DEFENDER ROOF RACK SYSTEM

In a flat-pack design for easy delivery, and with a special finish for improved corrosion resistance, the Roof Rack System is available in two lengths to suit all users. Suitable for on-road and light off-road duties, the sturdy perimeter frame allows for maximum load retention but generates minimum wind noise. No drilling is necessary to secure the roof rack, so it can easily be removed for low height car park and garage access. A ladder rack can be used for longer loads, and an access ladder makes loading and unloading a safe and simple operation.

RTC8141A Roof Rack 2400mm
RTC 8161A Roof Rack 1600mm
RTC8131A Ladder Rack, Single

SPORTS BAR SYSTEM

A high leg design to extend carrying potential for a variety of equipment, the sports bars can accommodate a range of attachments, including special carriers for the increasingly popular sports of skiing and windsurfing. Quick strap and load stops are useful devices to make using the system even more effective and straightforward.

STC7582 Defender Sports Bar System (Pair)

STC50184 **Ski Carrier** Whether you're planning to ski on snow or water, the Defender will take the load. This flexible design can carry 2 water skis or 4 pairs of snow skis.

STC8527 **Windsurfer Carrier** For total safety and security for the Windsurfer, this specially designed carrier has foam pads that ensure the board is protected. It has an adjustable mast holder and is made from rust-free materials. Available for fitment to either Roof Rails with Lockable Cross-Bars or Sports Bars.

STC50177 **Ski and Snowboard Carrier Attachment** Designed to transport the awkward cargo of skiing equipment. This easy lock carrier is manufactured from glass reinforced nylon composite, has fully adjustable positioning and holds 4 pairs of skis and poles and 2 snowboards.

RTC9477 Load Stops, Pair

PROTECTION AND ACCESS

SIDE RUNNERS

The sturdy steel design of these side runners, mounted to the vehicle chassis, add to the rugged appearance of the Defender as well as easing entry and exit. The moulded footgrip ensures non-slip stability and doubles up as a boot cleaner.

STC8015AA Side Runner: to fit 110 SW

STC8438AA Side Runner: to fit 90 SW

STC50141 Stainless Steel Side Runners: to fit 90 model only

RAISED AIR INTAKE

For navigating deep water and heavy dust, this raised air intake acts as a snorkel secured to your Defender's 'A' post. Suitable for 300Tdi engines, the raised air intake uses the existing intake vent, so no drilling of the wing is needed.

STC50265 Raised Air Intake: for Defender TD5 models from November 1998

STC7050AB Raised Air Intake: for 200 and 300 Tdi models up to November 1998

ACCESS LADDER

This ladder mounts to the rear door and offers access to various roof carrying systems.

TOWING & WINCHING

WINCHES

Extend the versatility of Defender even further with these powerful electric winches, designed exclusively for Land Rover. Offering total reliability, whether for general winching or for self-recovery, all four of these winches are designed as complete vehicle packages making specification and installation simple and straightforward. Features include:

- Fully reversible power for two-way winching
- Remote control operation
- Fully automatic load actuated braking system
- Tough replacement bumper/winch mounting designed to cope with heavy duty usage (except RTC8965)
- Sealed-for-life, water resistant winch gear housing
- Kits include winch, mounting brackets, remote control, electrics and fastenings

STC8818 XD9000i Electric Winch: Capacity 9000lb

Rated capacity of 9000lb/4100kg
Remote switch with 3.7m/12' of cable
38m/125' of 8mm diameter wire rope

STC50104 M6000 Electric Winch

Rated capacity of 6051lb/2671kg
Remote switch with 3.7m/12' of cable
24m/80' of 8mm diameter wire rope

RTC8965 M8000 Low Profile Winch

Unobtrusively mounted under the bumper
Can be fitted with air conditioning option
Rated capacity 8000lb (3600kg)
Remote switch with 3.7m/12' of cable
24m/80' of 8mm diameter wire rope

WINCH ACCESSORY KIT

With everything you need for your winching to run smoothly and successfully, this kit contains snatch block, strap, gloves, canvas storage bag and guide to winching techniques.

RTC9520 Winch Accessory Kit (available in the UK only)

TOW BARS

No 4x4 vehicle is more versatile than a Defender. Whatever the load you're pulling, Land Rover has a tow bar that can cope with the load - and they're adjustable, so choosing the right height is a simple operation with no need for extra tools.

| | |
|------------------|--|
| VUB105460 | Multi-Height Tow Bar. For 90" TD5 vehicles from November 1998 |
| VUB105470 | Multi-Height Tow Bar. For 110" TD5 vehicles (except HCPU) from November 1998 |
| VUB105480 | Multi-Height Tow Bar. For 130" & HCPU TD5 vehicles from November 1998 |
| STC50255 | Adjustable Tow Bar. For 90" TD5 vehicles from November 1998 |
| STC50256 | Adjustable Tow Bar. For 110" TD5 vehicles (except HCPU) from November 1999 |
| STC50257 | Adjustable Tow Bar. For 130" & HCPU TD5 vehicles from November 1998 |
| STC8051 | Tow Bar with Removable Tow Ball. For 90 and 110 vehicles up to November 1998 |
| STC7669 | Shock Link Towing Aid. For use with all Defenders with adjustable tow bars, the Shock Link absorbs sudden movement giving a smoother drive. |
| RTC8831 | Spare Slider Plate. For RTC8828 and RTC9580A |
| RTC9580A | Detachable Tow Bar. For 110 HCPU vehicles up to November 1998 |

TOW HITCHES & TOW STRAP

| | |
|------------------|---|
| RTC8891 | 50MM Tow Ball |
| RTC8159 | Combination Tow Ball / Jaw Unit 3.5 tonne capacity |
| KNB100640 | Tow Jaw 3.5 tonne capacity |

Constructed from hard-wearing polyester webbing with a safety hook at each end, the tow strap will safely cope with loads of up to 1360kg (3000lb). The tow strap is stored in its own reflective, wipe-clean stowage bag, which will double up as a warning flag in the middle of the strap, or can be folded around the strap for off-road towing.

STC8919 Tow Strap

TOWING ELECTRICS

Land Rover Towing Electrics Kits are BSI approved and come complete with 7-pin socket, cables and fixings. Combined with an S-type auxiliary socket kit, the electrics kits provide power to lights and other electrical equipment in caravans and trailers. The split charge unit will enable you to charge mains and auxiliary batteries from your Defender.

| | |
|------------------|---|
| RTC8872 | 'N' Type Towing Electrics Kit. For Defenders up to November 1998 |
| YWJ101500 | 'N' Type Electrics Kit For TD5. For Defenders from November 1998 |
| STC8874 | 'S' Type Auxiliary Socket and Split Charge Unit. For Defenders up to November 1998 |

- RTC8099** Rear Footwell Pair of Rubber Mats: for 110 vehicles up to November 1998

LOADSPACE MAT

Featuring an anti-slip chequer design incorporating the Defender logo, and moulded from a durable polyurethane material, these mats protect the loadspace floor from water, mud, and general wear and tear.

- STC7619** Loadspace Mat for 90 HT
- STC7620** Loadspace Mat for 110 HT
- STC7898** Loadspace Mat for 90 SW
- STC7899** Loadspace Mat for 110 SW

LOADSPACE PROTECTOR

Moulded to fit the contours of the load area, this is the ultimate in loadspace protection. Tough, shatterproof ABS guarantees long life and the protector can be easily removed for hosing down.

- RTC8935** Loadspace Protector for 110 SW
- RTC8936AA** Loadspace Protector for 90 SW

WATERPROOF SEAT COVERS

To protect seats from water, mud, and general wear and tear, waterproof covers are essential. These easy to fit, wipe-clean designs are co-ordinated with the interior colour, and can be stored away in the carry bag when not in use. Material meets flammability standards.

- STC8178AA** Waterproof Seat Covers Front Outer Pair
- STC8179AA** Waterproof Seat Covers Front Set of Three
- STC8180AA** Waterproof Seat Covers Middle Set of Three
- STC8181AA** Waterproof Seat Covers Inward Facing Set of Four
- STC8182AA** Waterproof Seat Covers Rear Side Bench Pair
- STC8183AA** Waterproof Seat Covers 60/40 Split Rear Bench Pair
- STC7637AA** Waterproof Seat Covers Rear Bench pair for 110 12 seater

DEFENDER CUBBY BOX

Keep your valuables safe and close to hand in this strong, lockable cubby box which fits between the two front seats. Trimmed in practical black or grey vinyl, the cubby box is good-looking and easy to wipe clean.

- STC7879** Grey Centre Cubby Box for two-seat derivatives
- STC7634** Black Centre Cubby Box for two-seat derivatives

DOG GUARD

To keep your dog safe, while keeping the rest of the interior clean, the Dog Guard separates the loadspace from the passenger area effectively and securely. It can be removed in seconds when not required with the two thumb wheels, and won't leave a mark on the headlining. Designed exclusively for Defender, the guard's mesh design protects even small animals and is finished in robust grey nylon.

- STC7555** Dog Guard for 110 Station Wagon
- RTC8095** Grey Mesh Dog Guard for 90 and 110 Hard Top

GUN BOX

The heavy gauge steel construction of this exclusive Land Rover Design ensures complete peace of mind, with space for the safe storage of two guns or other valuables in foam padded trays. Radial pin tumbler locks offer total security. The gun box is anchored to the vehicle floor by a 3mm locking plate and two thumbscrews, and cannot be removed when locked.

Environmentally conscious

In addition to delivering improved fuel economy and reduced CO₂ emissions, the Defender uses only water-based paints. Whilst providing the highest quality paint finish, the spraying process reduces solvent emissions by over 50%.

Ozone depleting gases such as CFCs and HCFCs have been eliminated from all vehicle components and production processes.

Defender's manufacturing process improvements have resulted in 30% reductions in CO₂ emissions and 41% savings in water usage per vehicle. (Between 1991-1998).

The Defender design has been improved to facilitate easier disassembly, materials recycling and fluid drainage.

A true 'lifetime ownership' philosophy ensures that your Defender satisfies all your driving needs.

Whilst Land Rover take the utmost care in ensuring that all details in the publication are correct at the time of going to press, we are constantly striving for improvement and therefore reserve the right to alter specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local market conditions and requirements, and not all products are available in every market. Please consult your Land Rover dealer who will be pleased to advise you on current specifications. Distributors and dealers are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.
